HDP3-1	Dislike	This map puts the historic downtown Bozeman neighborhoods in the same house district as Clyde Park and Paradise Valley. That is insane, reckless, and clearly gerrymandering.	Zach Nell	zachnellmt@gmail.com	Bozeman	Montana
HDP3-1	Like	This map treats Park County fairly by keeping the rural areas together in one district and the city areas together in another district. This map meets all the criteria. It is competitive without sacrificing common interests of Park County and Livingston.	Judy Lewis	judylewis809@gmail.com	Livingston	MT
<p>All 4 of the map options create very large Eastern Districts with long travel distances for representatives. The focus was obviously toward benefitting the Western portion of the State and disadvantaging the Eastern Third of the people in this State!!!</p> <p>This map and all four maps for the sake of numbers completely ignores the differences in culture and concerns for the people of the districts. The Town of Colstrip and the issues associated with the mine and the power plants have no concern to the Native American populations and loading the district with a majority that have no vested interest in the mine and plants indicates an intentional lack of representation for a portion of the State that is already under fire from Environmental groups and now our own State has chosen to reduce the representation for this area. Splitting the town of Colstrip was insulting enough, but the lack of understanding for the people of Colstrip and for the Indigenous Peoples is unforgiveable. All maps for our eastern district go against the rules for creating districts. Also, against creating many more Senate districts as this will double the costs for salaries, travel, per diem, staff to support additional legislature. Larger states have more people per representative we DON'T need additional costs.</p>						
HDP1-1	Dislike	This committee needs to get right by eastern Montana and reduce the costs of government.	Darrell I Brabec	photobrabec@yahoo.com	Colstrip	MT
HDP1-1	Like	The Briarwood area should not overlap into the reservation. Different cultural, economic concerns. I think we would share the concerns of communities like Lockwood and Duck Creek as suburban like community	Karim P Eshbaugh	therighthome@bresnan.net	Billings	MT
