

Evaluating 2023-2032 Senate Plan on Commission Competitiveness Metric

In June of 2022, the Commission adopted a competitiveness measure to identify what legislative districts will be considered competitive. The Commission will evaluate state legislative plans using ten races from 2016 through 2020, which are all publicly available. State legislative districts won by both major parties at least 30% of the time are considered competitive. State legislative districts won by the same party 80% or more of the time in these 10 races are not considered competitive.

****The 2-party statewide average for these ten races is 57% Republican and 43% Democrat.***

Commission Competitiveness Evaluation	
Republican Districts	29
Democratic Districts	18
Competitive Districts	3
Total Senate Districts	50

*Won by Republicans at least 80% of the time.

*Won by Democrats at least 80% of the time.

[*Competitive Districts: Won by both major parties at least 30% of the time \(or 3 of the 10 races\).](#)

Breakdown of Competitive Districts Only	
Republican-Leaning Competitive Seats	2
Democratic-Leaning Competitive Seats	0
Competitive Seats (won equally by both parties)	1
Total Competitive Senate Districts	3

*Competitive districts won a majority of the time by Republicans.

*Competitive districts won a majority of the time by Democrats.

*Competitive districts won 50% of the time by both major parties.

Breakdown of Party Advantage	
Majority Republican Won Districts	31
Majority Democratic Won Districts	18
Districts Won 50% of the Time by Both Parties	1
Total Senate Districts	50

*Won by Republicans at least 60% of the time.

*Won by Democrats at least 60% of the time.

*Won by both major parties 50% of the time.
